DERIVED TEST FIXTURE ? NOT AN OFFICIAL SEC PDF OR COMPLETE FILING

Issuer: NVIDIA Corporation

CIK: 0001045810

Form: 10-K

Accession: 0001045810-25-000023

Filed: 2025-02-26

Fiscal year ended: 2025-01-26

Selected consolidated financial facts (USD millions):

Revenue: 130,497

Operating income: 81,453

Research and development expense: 12,914

Net income: 72,880

Selected business context:

NVIDIA provides accelerated computing platforms spanning compute, networking and software. Demand growth includes data-center workloads and generative AI.

Selected risk excerpts, paraphrased for testing:

- Manufacturing, assembly, testing and packaging depend on third parties.
- Export controls and regulatory changes can limit product availability.
- Customer and geographic concentration can amplify demand volatility.
- Rapid product transitions and supply constraints can affect results.

This minimized text exists only to test issuer resolution, retrieval, page-addressable citations and claim/evidence binding.
